Negotiation Update

The TWU flight groups representing the flight instructors and simulator technicians met on October 27, 2009 at flagship university. Present at the meeting were the fleet groups, the federal mediator Terri Brown, and AA management.

The company presented the negotiation committees a financial outlook for 2009. After the presentation, the flight groups met with Ms. Brown to inform her that the flight group's position had not changed. We will continue to seek structural increases and restorations from the 2003 agreement.

Future dates to be set sometime after first of year.

Fraternally,
Jim Fudge
President
